Sir,

Ref - Treating the services of the members of the Disinfection Gang permanant

---

With reference to your memo No A5-C 525 dated 19th April 44, calling for my explaination for the delay caused in submitting the report called for pertaining to the above subject and in continuation of this office report No H2-Pr 57 dated 31st March 44, submitting the report called for, I have the honour to place before you the following facts for favour of your information

1 Even though the establishment is said to have been temporary, as per G O No 790-1/Ml 32-21-47 dated 26-7-22 yet the establishment is continued from 1-7-1913 without being renewed every year as is done in the case of other temporary establishments Yet no service registers have been opened for the staff of this establishment to enable me to collect the information called for immediately and to submit the same in time

2 The existence of this gang could be traced only up to 1-7-1913 as could be seen from the scale registers available in record section Scale registers prior to 1-7-1913 are not available in the records

3 The records pertaining to the Health Section do not seem to have been sent to the record section of head office for being filed When the Municipal Offices were shifted from the old to the new building, these records, seem to have been shifted rather carelessly and dumped in heaps in convenient corners in

in different places

4 At the time I took charge of this office in September 1942, the records of this office were found piled up carelessly and in heaps in different places When a search was made for collecting the information called for, all these heaps were ransacked and with the greatest difficulty 61 Barawards books were isolated from these heaps, extending from 1889 to 1926 and were sent to record section on 29-7-43 for being filed Yet many Baraward books pertaining to several sub-periods between 1889 to 1926 still remain untraced in spite of regular search made for them

5 The records sorting section appointed during 1933-34, has sorted out and indexed records only as far back as 1913-14 pertaining to scale registers

6 The dates of entry into service of the some of the gangmen could not be traced, inspite of careful search made and when this fact was personally brought to your kind notice, you were pleased to observe that further search should be made to collect the information to make the report complete as it has to be submitted to the Government

7 The very fact that my report dated 31-3-44 still contains the names of 5 persons whose date of entry into service could not be traced, shows clearly that even though repeated search was made, these entries could not be traced

8 Under the circumstances stated above it may kindly be seen that this delay was inevitable and could not be avoided
